## **NEWS RELEASE**

### **Jackpot Announces Launch of Next Generation Electronic Table Games Platform**

VANCOUVER, BRITISH COLUMBIA. February 6, 2017 – **Jackpot Digital Inc.** (the “Company” or “Jackpot”) (TSX-V: JP) (US OTC Pink: JPOTF) (Frankfurt & Berlin Exchanges: LVH). Jackpot is pleased to announce that it will be launching **Jackpot Blitz™** (“Blitz”), the Company’s proprietary next generation gaming platform that will transform the poker Electronic Table Games (“ETG”) segment of the casino industry. Through its state-of-the-art technology, Jackpot Blitz™ offers an incomparable player experience to go with unrivalled operator efficiency, flexibility, and profitability.

Jackpot Blitz™ represents a significant leap from Jackpot’s industry-leading PokerPro ETG system. PokerPro is currently in operation with cruise lines, poker rooms, and casinos worldwide. Blitz advances all features of Jackpot’s PokerPro ETGs, with one single massive touchscreen compared with PokerPro’s 11 individual monitors. Blitz’s enhanced touchscreen functionality and responsiveness also allows for a more realistic and enjoyable gaming experience. Blitz has enriched gameplay, an ergonomic table set up for improved player comfort, and a modular design allowing multiple simultaneous house banked games on a single Blitz table. Jackpot has patents pending.

Jackpot Blitz™ features a stunning modern design with a massive 84 inch 4K touchscreen and is capable of accommodating ten players concurrently. Blitz’s ultra-responsive and durable touch screen, with more than 100 sensitive touchpoints, allows players to perform multiple actions simultaneously to perfectly replicate a live gaming experience.

Blitz will provide gaming operators with unparalleled operational efficiency and profitability through patented dealerless operations, easy-to-use ETG management software, seamless accounting, multi-table tournaments, interchangeable game offerings, and industry leading gameplay speed.

Blitz’s modular software platform can display multiple table games simultaneously on one Blitz table, including poker (Texas hold’em, Omaha, and video poker), blackjack, baccarat, roulette, and other casino games in any combination desired by the operator. The embedded mini-games feature will also allow players to make side bets and to play single player mini-games (blackjack, roulette, and other popular casino games) during cash and tournament poker games. The interchangeable games and mini-games features afford operators unsurpassed flexibility and profit maximization through high table occupancy and continuous gameplay.

Jackpot's comprehensive back-end system will allow gaming operators of all sizes to offer poker, blackjack, baccarat, roulette, and other casino games using Jackpot Blitz™. Blitz operators will have full access to Jackpot's mobile application for table, tournament, and customer management from any desktop or tablet computer. The player kiosk facilitates player deposits, payouts, and registration in a simple automated process. The back-end system provides operators real-time reporting and the ability to track profits, rake totals, and other key industry metrics.

Jackpot plans to launch Blitz in Q2 of 2017, gradually replacing and increasing its current tables in operation in the near future. Jackpot also expects the introduction of Blitz to attract a significant number of new customers as the product is rolled out.

Mr. Jake Kalpakian, Jackpot President and CEO, states "Jackpot Blitz™ represents the next evolution of electronic table games and it is going to be a complete game changer for land based casinos and poker rooms. Our product features best in class technology and innovative features, making it a must-have for traditional and electronic gaming operators worldwide no matter the size of their operation. This product will truly revolutionize the nascent but fast-growing electronic table gaming industry, and we are excited to see Blitz on gaming floors in the next few months."

#### **About Jackpot Digital Inc.**
